

REFERRING TO FAIRBANKS

Making a Referral

When your patient or client is facing addiction or substance use disorder, it can be hard to treat the other aspects of his or her life. By referring them to Fairbanks, you are recommending personalized care using evidence-based, proven treatments.

What You Can Expect

- Thorough patient assessment conducted by a licensed professional
- Personalized treatment plan
- Ongoing patient family support
- Responsive follow-up from the Fairbanks team so you are up to date on patient status

Assessment & Admissions

Our Access Center is open 7 days a week for free assessments. Appointments are not necessary, but encouraged. Please have your patient bring a photo ID, insurance information, all medications in original pharmacy containers, a contact list of any doctors and psychiatrists/psychologists with whom they are working and an emergency contact list.

Monday - Friday: 8 AM - 9 PM

Saturday & Sunday: 8 AM - 5 PM

Access Center Direct Line: 317-572-9396

Fairbanks 24/7 phone line: 800-225-HOPE

Program Expectations

Because being able to live in recovery is not a quick fix, one-size-fits-all treatment, we tailor our evidence-based programming to meet patient needs. While receiving treatment, patients will receive expert care as they develop skills to help them live in recovery, as well as educational support for their families.

A typical day may include:

- Group therapy
- MAT (Medication-Assisted Treatment)
- Relapse prevention
- Nutrition education
- Stress management
- Life skills development
- Family education groups
- Recreational therapy

In addition to our medical facilities, amenities at Fairbanks include a gym, cafeteria, coffee shop and gift shop. These amenities are open to all our patients, regardless of the programming in which they are enrolled.
